OLAMIDE OLANIPEKUN

WEB3 COMMUNITY MANAGER | COMMUNITY GROWTH, CUSTOMER SUPPORT & OPERATIONS

flux.fx05@gmail.com | LinkedIn | Portfolio | Remote / Hybrid

PROFESSIONAL SUMMARY

I build Web3 communities and run the work that keeps them active and supported: engagement, moderation, social channels, automation, and customer support, with a working knowledge of blockchain and cryptocurrency. At **Betboom**, I created Discord and Telegram communities from scratch for approximately **50,000 members**, maintaining typical response times of **5–7 minutes**. At **Limitless Prop Firm**, I held two concurrent roles: Product Manager & Growth Operations Lead (Sep 2022–Dec 2023) and Community & Customer support specialist (May 2022–Dec 2023). Across those roles, I helped grow Discord and Telegram communities beyond **5,000 members**, led a six-person community team and a separate two-person website support team, and maintained support response times of approximately **5–15 minutes** using Zendesk. At **YNX**, I built and owned the community from scratch, then sourced moderators, marketing talent, and developers to support community operations, growth, and product delivery. My broader experience spans **7+ years** across product, operations, marketing, growth, community management, and customer experience.

CORE SKILLS

Community Management Community strategy and operations; community building and growth; onboarding; moderation and member conduct; moderator management; member engagement and retention; community communications; campaigns, giveaways, AMAs and events; Discord and Telegram; team coordination.	**Customer Support & CX** Customer support; customer experience; Zendesk implementation; ticketing workflows; issue triage and escalation; SLAs and response-time management; support team leadership; SOPs, documentation and knowledge bases.

Web3 & Crypto Web3 industry knowledge; blockchain and cryptocurrency communities; crypto product and trading ecosystem familiarity.	

PROFESSIONAL EXPERIENCE

Product Manager | Growth Lead · YNX

Apr 2025 – May 2026

Led product development and growth execution across digital products, taking initiatives from discovery and planning through development and launch. Built and owned the YNX community from scratch, then sourced moderators, marketing talent, and developers to support community operations, growth initiatives, and product delivery.

- Built and launched an MVP and managed its product lifecycle, coordinating delivery with engineering and cross-functional teams.
- Built and owned the YNX community from scratch, establishing its structure and ongoing community operations.
- Sourced moderators to support community moderation, and sourced marketing talent and developers to support growth initiatives and product delivery.

Product Manager · Deserialize

Apr 2024 – May 2025

Worked across product and ecosystem operations for a Web3 swap aggregator focused on best-price routing, using user feedback and operational insights to inform product improvements.

- Supported discovery, prioritisation, delivery, and product improvement across the swap aggregator.
- Used user behaviour, operational feedback, and recurring customer needs to identify friction and inform product decisions.

PROFESSIONAL EXPERIENCE | CONTINUED

Product Manager & Growth Operations Lead · Limitless Prop Firm
Sep 2022 – Dec 2023

Worked across growth-focused product initiatives, customer experience, community infrastructure, and operational execution for a proprietary trading business.

- Managed growth-focused product initiatives, identifying opportunities to improve user journeys, engagement, activation, retention, and operational efficiency.
- Translated user feedback, community insights, and operational challenges into product and growth improvements across onboarding, engagement, retention, and customer experience.
- Coordinated growth campaigns, partnerships, and social media activity across X and LinkedIn.

Community & Customer support specialist · Limitless Prop Firm
May 2022 – Dec 2023

Owned community operations and customer support workflows alongside the concurrent product and growth role.

- Built and managed Discord and Telegram communities from scratch, growing the community beyond **5,000 members**.
- Led a **six-person Discord and Telegram team**; developed community infrastructure, customised Telegram bots, Discord bots, engagement systems, and operational workflows.
- Coordinated a separate **two-person website support team** and improved support operations using Zendesk, maintaining response times of approximately **5–15 minutes**.
- Coordinated community engagement, moderation, announcements, and member feedback to inform product and operational improvements.

Community Manager · Gotabit
Feb 2021 – Oct 2022

Managed community operations, customer support, content coordination, and engagement initiatives, acting as a communication link between users and the technical team.

- Created and published community content across social media, keeping members informed about project updates and activities.
- Managed community enquiries and customer support, providing guidance and coordinating technical issues with the technical team.
- Programmed customised and general-purpose community bots to automate processes and support community operations.
- Welcomed and onboarded new users, hosted AMA sessions, organised community events, and enforced community guidelines fairly.
- Prepared weekly progress reports covering community activities, engagement, feedback, and outstanding issues.

Community Management & Growth Contributor · Betboom
Jan 2020 – Sep 2021

Created Discord and Telegram communities from scratch and supported their ongoing management for a community of approximately **50,000 members**.

- Managed member enquiries and customer support, maintaining typical response times of approximately **5–7 minutes**.
- Handled member onboarding, community communications, project updates, campaigns, and engagement activities.
- Coordinated with project stakeholders and surfaced member questions, feedback, and recurring concerns for resolution.
